# EXPAND YOUR SERVICES

An industry-first inline converged network security solution, specifically designed for MSSPs
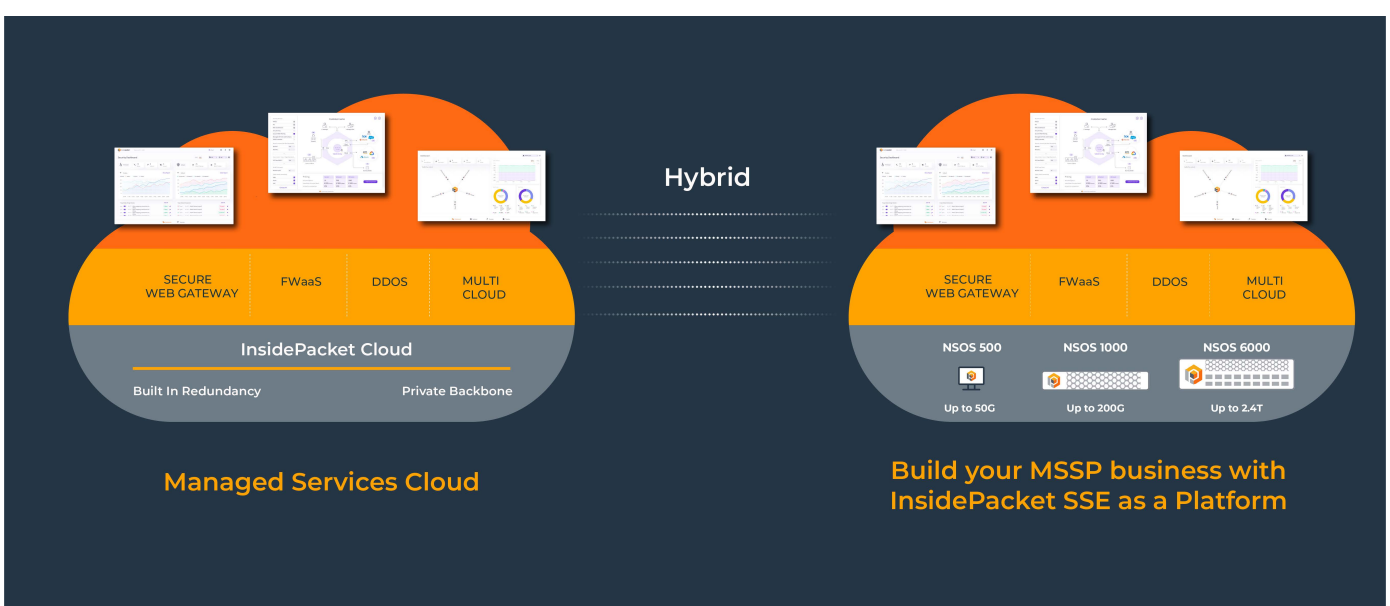

Start your journey.

Your business future starts here with highly differentiated, on demand services, from the cloud or on prem. We know that MSSPs require a solution that is customizable and instantly deployable, and we are here to assist you on your journey. Managed security that grows with you.

We offer a solution that enables you to swiftly adjust your services offering, empowering you to shape, manage, and offer tailor-made network security services for your customers, driving revenue up and costs down. Introducing InsidePacket.

InsidePacket's network security solution offers the best of all worlds. The flexible solution from one service to SSE/SASE suite can be offered from InsidePacket's infrastructure (with the shortest time to market) as well as from your own infrastructure, with our unique all around configuration tools, All catering to your needs and SLA requirements, while sporting self service management tools, with ready-made configuration, saving you manpower and costs on deployment and service delivery.

Hybrid

Managed Services Cloud

Build your MSSP business with InsidePacket SSE as a Platform

Our solution has all the SASE ingredients baked in and converged inline - SWG, SD-WAN, ZTNA, and FWaaS. InsidePacket offers flexibility from a single service to a full SASE stack, meeting your needs. Furthermore, we offer clear end-to-end visibility, and a single, consolidated policy control for any number of tenants.

We enable our MSSP customers to have full control over their service offering for clients, allowing them to add services and bandwidth on a per-customer basis and bill accordingly. Our solution includes account management, marketing resources, a dedicated partner portal, and 24/7 partner support.

Your Benefits

Your business, your decision.
Start off your journey with a single service (FWaaS, Multi-Cloud connectivity etc.), Increase tenants and bandwidth by demand, In the cloud, on-prem or hybrid. Your choice.

Get your customers On Board in minutes.
